

SAMPLE QUESTION PAPER (THEORY)

Qualification Pack Name: Jute Selector cum Assorter

QP Code: TSC/Q0107 Version: 1.0 NSQF Level: -

TSC/N0123 – Handling Jute bales and grade wise stacking

Q1. What is a barrow?

- A. A trolley used to carry jute bales
- B. A storage room for jute bales
- C. A type of jute sack
- D. A tool for cutting bale ropes

Q2. How are jute bales opened?

- A. By pulling them apart with spikes
- B. By cutting the bale ropes
- C. By pressing the bale manually
- D. By soaking the bale in water

Q3. What does grading of jute fibres mean?

- A. Eliminating fibres of low quality
- B. Mixing fibres of different quality
- C. Categorizing fibres based on quality
- D. Categorizing bales based on their size

TSC/N0124 – Sort and cut raw Jute for further processing

Q4. Grading of jute fibres is based on which factor(s)?

- A. Length only
- B. Colour only
- C. Strength only
- D. Length, colour and strength

Q5. Hackling is the process of:

- A. Twisting of fibres
- B. Combing of fibres
- C. Sorting of fibres
- D. Stretching of fibres

Q6. How can defects in raw jute be identified?

- A. By measuring the moisture content
- B. By observing fibre breakages and damage
- C. By checking the weight of the bale
- D. By checking the length of the fibres

TSC/N0125 – Up-gradation and down gradation of raw jute

Q7. Up-gradation and down-gradation of raw jute is done on the basis of:

- A. Instructions given by the supervisor
- B. The personal choice of the worker
- C. Established quality standards and guidelines
- D. Current demand in the market

Q8. Colour coding improves production efficiency by reducing:

- A. The risk of mix-up of fibres
- B. Material wastage
- C. Reworking time
- D. All of these

Q9. Which statement about dark coloured jute fibres is incorrect?

- A. They are of higher quality
- B. They generally have higher root content
- C. They are of lower grade than light fibres
- D. Their colour affects their grading

TSC/N9002 – Working in a team

Q10. You realize you caused a quality issue by mistakenly interchanging graded jute. What should you do?

- A. Ignore the mistake and proceed
- B. Blame someone else for the issue
- C. Inform your supervisor and accept the mistake
- D. Hide the error until the shift ends

Q11. What should you do if you are required to complete a task on an urgent basis?

- A. Hand over the work to a co-worker
- B. Prioritize the task to complete it on time

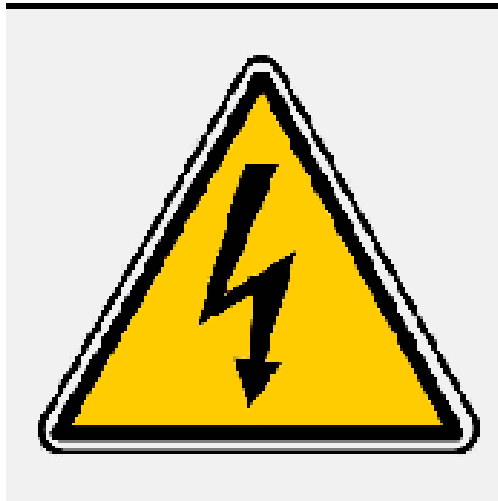

- C. Ignore the urgency and follow the routine
- D. Refuse to accept the work

Q12. How should you react to newly introduced rules at your workplace?

- A. Adhere to the new rules
- B. Raise a protest against the rules
- C. Ignore the rules
- D. Raise a complaint against management

TSC/N9003 – Maintain health, safety and security at workplace

Q13. Identify the symbol:

- A. Hazard
- B. High Voltage
- C. Electric shock
- D. Wiring fault

Q14. While hackling jute strands, what should be worn for protection?

- A. A nose mask
- B. A helmet
- C. A cap
- D. Boots

Q15. What should you do if you are injured at work?

- A. Continue working if the injury is minor
- B. Report to the supervisor immediately

- C. Report it at the end of the shift
- D. Do medications on your own

TSC/N9009 – Maintain work area, tools, material handling equipment and machinery for jute processing

Q16. How should chemicals be stored in the workplace?

- A. At any vacant place
- B. At designated places
- C. On the working table
- D. Outside the work premises

Q17. Which of the following is an example of hazardous waste?

- A. Cardboards
- B. Jute stalks and remains
- C. Softeners, spreaders and other chemicals
- D. Food wastes

Q18. What will you do if you notice the machine guard at the gear side is broken and open?

- A. Ignore it as it is not important
- B. Inform the supervisor after the shift
- C. Inform the supervisor immediately
- D. Try to cover it with a cloth

TSC/N9010 – Comply with industry and organizational requirement in jute sector

Q19. Organizational rules and regulations should be followed by:

- A. Supervisors only
- B. Quality controllers only
- C. Management only
- D. All employees

Q20. Achieving quality as per the standards is the responsibility of:

- A. Quality controllers only
- B. The supervisor only
- C. All employees

- D. Management only

Q21. If an employee finds difficulty in achieving the production target, you should:

- A. Complain to the supervisor
- B. Allot some other work to the employee
- C. Motivate the employee to do better
- D. Ignore it, as it is not your responsibility

DGT/VSQ/N0101 – Employability Skills (30 Hours)

Q22. Active listening can be improved by:

- A. Asking questions while others are speaking
- B. Just nodding at everything said
- C. Clarifying doubts after the other person speaks
- D. Doing other work while listening

Q23. How can cyber-security be maintained?

- A. By keeping strong passwords
- B. By knowing how to use smart phones
- C. By having knowledge about social media
- D. By not using any digital payment app

Q24. Which is the polite way of disagreeing with someone?

- A. You are completely wrong
- B. That is a wrong idea
- C. You don't understand the problem
- D. I get your point, but I think we should reconsider

Answer Key

Answer Key: Q1 – A, Q2 – B, Q3 – C, Q4 – D, Q5 – B, Q6 – B, Q7 – C, Q8 – D, Q9 – A, Q10 – C, Q11 – B, Q12 – A, Q13 – C, Q14 – A, Q15 – B, Q16 – B, Q17 – C, Q18 – C, Q19 – D, Q20 – C, Q21 – C, Q22 – C, Q23 – A, Q24 – D.
